

GPS-GSM Based Generator Tracking

&

Monitoring System with RFID Solution Model S101

Executive Summary

- A Bangalore, India, based Company.
- Commenced operations in February 2009.
- Engaged in Design and Development in the domains of GPS,GIS, Mobile Applications, RFID, Web Based Enterprise Applications.
- Manufacturing and Quality Assurance.
- ❖ A Full Fledged R & D wing with a dedicated team of qualified professionals.

OUR VISION

To be a vibrant company, providing quality and efficient service to customers and a rewarding experience to its employees.

OUR MISSION

We will develop products and provide services that will have a Strong Social Impact and would improve the quality of Human Life. From a business perspective, our products/services will help our clients get a better control over their business and make a positive impact to their bottom-line. .

INNOVATION

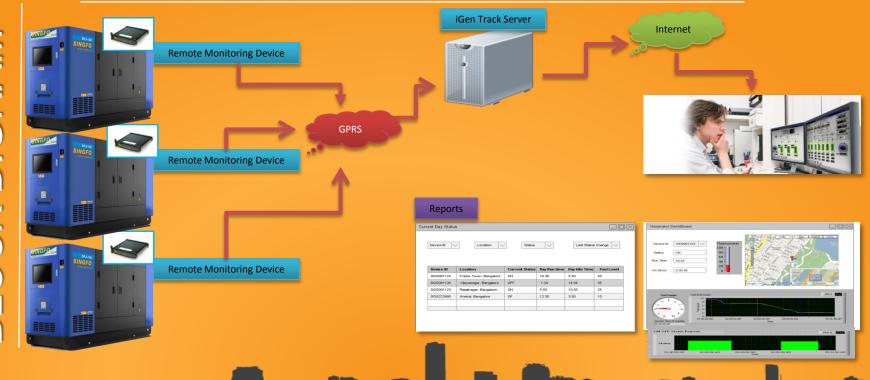

Through our innovative ideas, we always thrive to develop our next revolutionary product. We believe, nothing can inspire us like innovation. "Just as energy is the basis of life and ideas the source of innovation, so is innovation the vital spark of all human change, improvement and progress".

Our innovative products and solutions have always played a major role in solving our clients' specific problems. Our solutions are simple, cost effective, and developed by observing the end user needs. Our knowledge of multiplatform technologies, simple and proved methods and eagerness to develop the next big thing, has made us one of the competent companies capable of delivering state of the art cutting edge technology products.

"We are inspired to innovate"

Remote Generator Monitoring

- The Solution provides a solution for remotely managing the generator in remote sites.
- The system acquires generator usage statue, fuel level temperature and voltage periodically and sends it to a remote web server over GSM network for storage and processing.
- Web application provides many powerful MIS features.

MIS Reports

- ON /OFF status Report
- ON time and Off time report
- Fuel Level Report
- Current Status report
- Fuel added and theft Report
- Fuel graph, status graph
- Temperature and voltage reports

Email and SMS alerts

- Email/SMS on status change(ON->OFF, OFF->ON)
- Email/SMS on Low Fuel Level
- Email/SMS on generator over heating
- Email/SMS on fuel filling above threshold.

ISO 9001:2008 Certified Company

<u>aQuila</u> TRACK GPS-GSM-RFID Based System

S101

GPS + GSM/DATA RECORDING MODEL AQUILA TRACK S101

Features:

- On/Off Tracking,
- Fuel Monitoring,
- Real Time Location of the Generator on Google map.
- Location and Fuel Level Query through SMS.
- All parameter configurations from web interface,
- Secondary Battery Backup up to 8 hours,
- **Domain Specific MIS Reports**: Daily report, Monthly report, On/Off Report, Indicative fuel report & pilferage controller (optional), Generator On/Off report, and more.....

OBJECTIVES

In today's situation, where security and safety is of paramount importance, it is important to put adequate measures, checks and balances to avoid any kind of mishaps or occurrences which will put the company finance in danger.

PROPOSAL

In order to meet the aforementioned objective, we propose to install our GPS/GSM based Remote Data Acquisition System, The Commercial details of this arrangement are given in the Commercials section. Under this arrangement, the company will be able to monitor the fuel level in the generators, on/off condition of the Generators.

WORKING PROCESS

- Install GPS/GSM based aQuila Track Management System in the Generators.
- Monitor On/Off of the Generators.
- Monitor Fuel Level of Generators.
- Allot RFID based Cards to every site engineer. The engineer has to necessarily swap the card before he/she leaves the site (applicable only if RFID facility is opted for).

BENEFICIAL FACTORS

- Generator can be tracked on real time maps at any point of time.
- MIS Reports also could be generated for detailed On/Off records, Start Report, Fuel Report.
- Remote On/Off control.
- Remote attendance of Site Engineers.

Tech Spec

Parameters	Description
Processor	ARM7, 60 MHz, 30 MIPS 32 bit Controller
Memory	4MB solid state SPI Flash, 100K Erase and Program Cycle, 10 year data retention.
	Duel Band GSM 900Mhz,DCS 1800Mhz GPRS: class10/class 8(Optional) & Coding
	Scheme CS1 to CS4.
GSM Module	Quad band option available on request
	GPS:66 acquisition-/ 22 tracking channels, Ultra high tracking/navigation sensitivity:
GPS Module	-165dBm1,Inbuilt patch antenna, 5 Meters Accuracy
Communication Interface	TCP/IP on GPRS.
Ports	1-USB Device type, 2 Analog I/Oand 2 Digital I/O
SIM Interface	Supports SIM card: 1.8V & 3V
SMS	Supports Text
GPRS Packet Data	Class 10 ; Class 8 (Optional), Coding Scheme CS1 to CS4

Tech Spec

Parameters	Description
LED Indication	Processing, GSM, GPS, USB Detection
Connectors	20 Pin SMD connector
	SIM Card Holder
Power Supply	Wide DC input voltage range (5V - 40V)
Internal Battery	Yes, 1500mah, 5 to 8 Hr backup
Enclosure	ABS Plastic Casing
Temperature	Operating: -10°C to +55°C
	Storage: -10°C to +85°C (Without Battery)
Dimension (mm x mm x mm)	106 L x 74 W x 30 H in mm
Weight	165 grams
Optional Features	RFID,AC Sensor, Door Open Sensor, Digital Outputs
Software	Website with tracking, report facilities

General Information & Product Description

FEATURES MAY VARY DEPENDING ON THE MODEL AND THE VARIANT

System Architecture

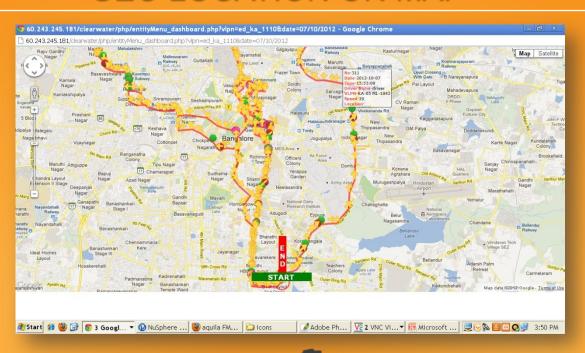

PRODUCT BRIEFING

- GPS tracking solutions for various market segments like Generator Monitoring, goods distribution, asset tracking, ATM Securitizing etc.
- GPS tracking products are ranging from passive offline trackers to active trackers with GSM/GPRS or satellite communication under the range of products called **AQUILA TRACK**.
- The technology enables accurate location (5 to 10 mtrs accuracy) of Generators.

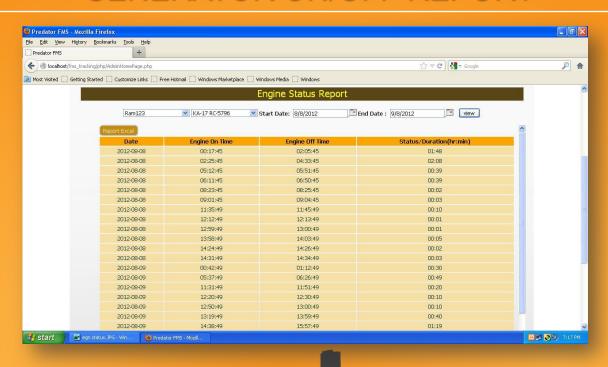

GEO LOCATION ON MAP

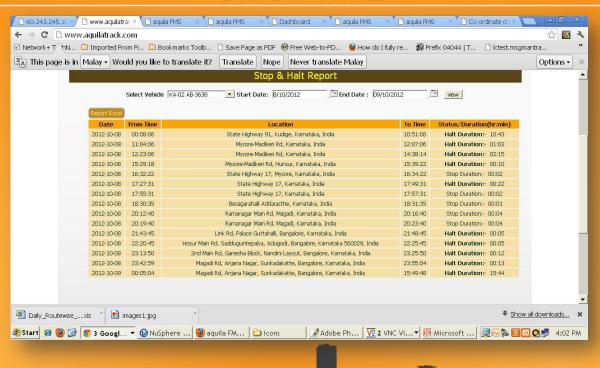

GENERATOR ON/OFF REPORT

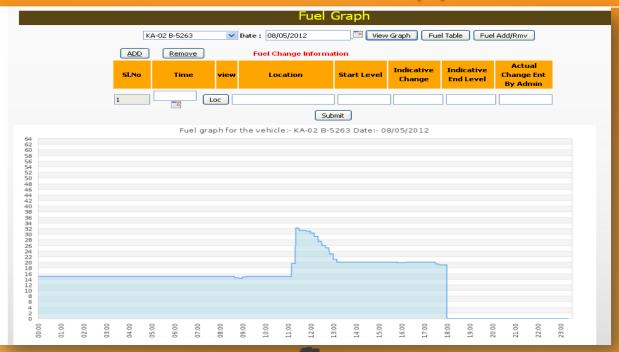

On/Off TIME

FUEL GRAPH/REPORT- FUEL FILLING (optional with extra cost)

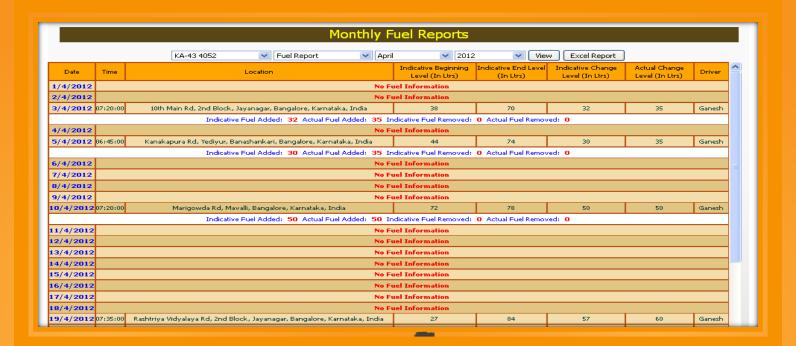

FUEL REMOVAL

FUEL REPORT

Engine Run hours based on Ignition on/off

WARRANTY

• The device shall be maintained and serviced under standard warranty conditions for the first year and shall be covered under a paid service for the preceding years. AMC option is also available at a cost of Rs.1050/- per vehicle, after the warranty period, under standard AMC terms and Conditions.

Any type of physical damage, sabotage or damage due to water log etc (induced defects) shall not be considered under

warranty, and customer shall bear the cost of the device and servicing.

• The warranty period for RFID reader & Panic Button would be six months.

Schools & Educational Institutions

- VDRIT, Haliyal.
- Cambridge Primary School, Ligasugur, Raichur.
- * R T Nagar School, Bangalore.
- Malgudi Vidya Niketan, Bangalore.
- Gnyanodaya Public School, Mysore.
